- + Instagram: [Ishanmishra__](#)

Experience

The Sixth Element • UX Designer

Dec 2024 - Feb 2025 • Remote

- Context: Commissioned to design a digital, interactive companion for a large-scale physical art map of India located within the school. The physical map featured diverse, traditional state art (e.g., Madhubani). It required a digital interface to provide deeper context and learning opportunities.
- Objective: To design a user interface for a dedicated, on-site screen that would be continuously displayed in front of the physical map for more details about the folk art.

Projects

Posture Corrector

- Developed a wearable posture-corrector concept that uses sensor-based feedback to detect slouching and prompt users toward healthier alignment, focusing on usability, comfort, and real-time interaction.

The Fatigue Loop: A UX Research Study

- Conducted a UX research sprint examining how Instagram Reels contributes to digital fatigue, focusing on user behaviors, attention patterns, and underlying factors influencing prolonged engagement.

Tools

- Figma, Photoshop, Davinci Resolve, Lightroom, Framer, Blender, Github, Unity
